COMPLETE THE COURSE MODULES

Now that you have logged in, enrolled and gone through the forum, you can proceed to the theoretical module!

The learning process includes lesson elements, tasks to be completed and gaining a course completion certificate.

Here you can see the content of the module organised by chapters

The theoretical part of the course may be presented as an E-book. There are sections for main course modules, each module comprising several chapters. You can navigate through and stop on the sections that you consider as being of interest.

If you are more visual, you have the option to read the Power Point presentations. Enjoy the course!

Resources and further reading.

After completing the modules, you'll take evaluation quizzes. These will give you the possibility to test your competence. There are 10 multiple choice questions with three possible responses. Only one is correct. Read carefully and solve the test. We wish you success!

If you respond correct to more than 50%, then you will meet the passing score. If you did not meet the passing score, stay calm, there are few more attempts. Read at your pace!
